The Operation at the Hebrew University in Jerusalem is a Small Step towards Settling the Score

The Martyr Izz al-Din al-Qassam Brigades announce their responsibility for blowing up the explosive device at the Hebrew University in Jerusalem as a revenge for the blood of the children and the bodies of the martyrs, who were murdered by the gang of the criminal Sharon.

To the usurpers across our blessed land,

Our initial response to the massacre in Gaza is but a small step towards settling the score. We will take many such steps, which will cause harm to all your institutions with no exception. We send this as a plain and clear message to the wiser people among you - hasten and leave our land or choose to die under it and to prepare many body-bags for our coming retaliation. The criminal Sharon and his myrmidons will be held responsible for the results to come.

To our people, families of the massacred children,

To you we say: in order to reassure you, extinguish the fire of your grief and pain and pay them back twofold and even more - the settlement of the score with our enemy has begun. Your Brigades have begun to strike everywhere and to turn the usurpers' lives into a living hell. Do not be concerned; make your faith in Allah strong, for He is our protector.

To the sheikh of those who resist, sheikh of the martyrs,

O our brother, our senior, our commander, our martyr - Salah Shehade: sleep peacefully, for we – your sons – have begun executing your will as you wrote it, in which you ordered us to fear Allah and to make Jihad on His behalf, and to make Palestine our top priority as well as our sons', until the Azan [call to prayer in Islam] is heard on the shores of Jaffa, Haifa and Ashkelon... Our promise to you is that we

will avenge every drop of blood that was spilled, and we will watch Sharon and his minions, who did not fear us.

Allah is the greatest and to him is the praise.

Truly the Jihad is victory or martyrdom
